## Experience and Expertise

### Our solutions can help you:

- Create and update CAD drawings and designs faster and easier
- Track the status of projects on a real-time basis
- Manage all project-related documents in a secure, centralized repository
- Collaborate efficiently with outside architects, engineers, contractors, etc.
- Reduce downtime and maintenance costs
- Meet industry regulatory requirements
- Keep everyone in sync
- Reduce project completion time and costs

### Who can benefit from our solutions?

- Architects, Engineers and Construction Companies
- Utilities, Pipelines and Telecommunications
- Manufacturers, Facilities Engineers and Planners
- Maintenance Managers and Personnel
- Space Planners and Real Estate Developers
- Retail and Restaurant Companies
- Hospitals and Educational Facilities
- Home Builders

### In order to accomplish these goals, we offer a wide variety of services including:

- System deployment and implementation
- Training and Ongoing technical support
- Custom programming using AutoLisp, Visual Basic and other industry standard programming languages

### We are:

- With more than 26 years in business, one of the most solid and stable organizations in our industry.
- Microsoft Certified Solution Provider with numerous Microsoft Certified System Engineers and Microsoft Certified Solution Developers.

### In addition, we both sell and support:

- Computer hardware and operating systems
- Networking hardware and software
- Internet technologies and platforms

## Experience and Expertise

We have experience installing and troubleshooting all Autodesk® Building and Infrastructure Software, including:

AutoCAD®  
AutoCAD® Architecture  
AutoCAD® Civil 3D®  
AutoCAD® Map 3D  
AutoCAD® MEP  
AutoCAD® P&ID  
AutoCAD® Plant 3D  
AutoCAD® Revit® Architecture  
AutoCAD® Revit® MEP  
AutoCAD® Revit® Structure  
AutoCAD® Structural Detailing  
Autodesk® 3ds Max® Design  
Autodesk® Building Design Suite  
Autodesk® Design Suite  
Autodesk® Factory Design Suite  
Autodesk® Infrastructure Design Suite  
Autodesk® Navisworks  
Autodesk® Plant Design Suite  
Autodesk® Quantity Takeoff

### CenterStone® Software

Focuses on spatial management in the workplace: how space is planned for (from planning through commissioning), utilized, changed, owned (or leased) and analyzed. This software was created for any size organization whose goal is to get an immediate, accurate, actionable view of their critical facility information.

*With more than 26 years of experience in the field, Hagerman & Company offers the software, services and experience to help make your company and your projects more efficient, productive and profitable.*

### Ask us about training on:

- Building Information Modeling
- Integrated Project Delivery Implementation
- Virtual Design and Construction Implementation
- Over-the-Shoulder Training

### Hagerman & Company has earned several titles in the industry.

- Microsoft Certified Solution Provider
- Microsoft Certified System Engineers
- Microsoft Certified Solution Developers
- Autodesk Certified Experts and Instructors
- Registered Provider of AIA Continuing Education Systems

### Company History

Hagerman & Company, Inc. is a Value Added Reseller/System Integrator (VAR/SI) and Consultant. The Company is a large supplier of manufacturing, architectural, and civil design software, training and consulting services in the CAD/CAM, PDM, and CRM markets. We market our products and services primarily to manufacturing firms, the AEC (architects / engineers / constructors) industry, and civil engineering firms. Hagerman & Company's products and services encompass three broad lines of business; namely, CAD/CAM solutions, Consulting Services for data management and design automation, and CRM. In addition the company both sells and supports the hardware, operating system, network, and Internet technologies and platforms that underlie these systems.
