

Solutions

Imagine it.
Design it.
Build it.
We'll help.

Nothing is more critical to your success than the quality of training and support provided by your CAD supplier. We have built our business and reputation by providing excellent training and support. Our Autodesk Certified instructors teach both the fundamentals of the CAD system and the particular techniques best suited to your individual needs and applications. And the Hagerman Support Team is unsurpassed in the industry.

Hagerman Expertise

With more than 27 years of experience in the field, Hagerman & Company offers the software, services and experience to help make your company and your projects more efficient, productive and profitable.

About Hagerman & Company, Inc.

Hagerman & Company, Inc. has a simple mission -- to help clients become more productive. We do this through the successful implementation of technology.

Hagerman & Company, Inc. is a Value Added Reseller/System Integrator (VAR/SI) and Consultant specializing in improving organizational productivity through the implementation of technology. The Company is a large supplier of manufacturing, architectural, and civil engineering and consulting services in the CAD/CAM, PDM, and CRM markets. We market our products and services primarily to manufacturing firms, the AEC (architects/engineers/constructors) industry, and civil engineering firms.

Testimonials:

"I did not expect to learn as many different topics about Inventor as I did. I have been using the program off and on for about a year. The methods I was taught will make me improve my productivity as well as make drawing in Inventor a more satisfying experience."

David Kelly, Forsythe & Long Engineering

"I just want to say this class is amazing. It'll help our company a lot and for that reason I say 'Thanks'."

Juan F. Martinez, Goodfellow Corporation
