Frequently Asked Questions for Customers

The Autodesk® Civil Visualization Extension available as a downloadable benefit to AutoCAD Civil 3D Subscription customers provides an easy-to-use, purpose-built design visualization workflow for civil engineers using Autodesk® 3ds Max® Design with AutoCAD® Civil 3D® software or other civil design applications.

With this extension, civil engineers can create high-quality visualizations of their projects, enabling them to validate designs through simulations and communicate design intent during planning, zoning, and public involvement meetings.

Even if they have little-to-no experience with 3ds Max Design, engineers using the Civil Visualization Extension can:
