

HAGERMAN & COMPANY®

BIM Collaboration Pro Training for Project Members

4-hour class

The course is designed to provide Project Members with a solid understanding of the workflow for Autodesk® Docs, and Design Collaboration. The course will explain each module's workflow and the tools that are available in each. We will begin by explaining Docs, folder management, uploading of various file types, reviewing files, markup tools, and issues management tools. The second phase will cover the Design Collaboration workflow, enabling work-sharing in the cloud, working with Design Teams, linking files, and saving and updating Revit cloud models.

*Prerequisite is Revit 2022 or greater

- Phasing, Design Options, and Groups
 - Applying Project Phasing
 - Using Design Options
 - Working with Groups
- Linking Models
 - Linking Models
 - Views and Linked Models
 - Copying and Monitoring Elements
 - Coordinating Linked Projects
- Importing and Exporting
 - Importing and Linking Vector Files
 - Modifying Imported Files
 - Importing Raster Image Files
 - Exporting Files
 - Exporting for Energy Analysis
- Project Team Collaboration
 - Introduction to Worksets
 - Opening and Saving Workset-Related Projects
 - Working in Workset-Related Projects
 - Visibility and Display Options with Worksharing
 - Worksharing and Linked Models
 - Setting up Worksets
 - Best Practices for Worksets
