REDEYE

ENGINEERING DRAWINGS AND DOCUMENTS AVAILABLE ANYWHERE, ANYTIME

Democratize your engineering information with RedEye, the cloud-native Engineering Drawing Management Solution (EDMS). Securely manage, markup, and share accurate engineering drawings from any device, anywhere. Acting as a single source of truth, Accruent's RedEye transforms document management for asset owners and operators, ensuring all stakeholders have access to the most current information.

> *"We chose RedEye to collect the documentation and knowledge created during the project for handover to operations. It's easy and fast to implement with quick configuration and a low learning curve, and with access through mobile or any web portal, it meant that when we were spread across the world at the start of the project, everyone had access to the information as it was being created and reviewed."*

> – John Ebbett, Project Director, ÇSEP

- Establish a hub in the cloud for engineering drawings and documents.

- Empower collaboration with unlimited users, connecting all stakeholders.

- RedEye supports all engineering drawings, from PDFs to DWGs and 3D models.

- Our powerful search frees your team to do meaningful work instead of filing.

ACCRUENT

ENSURE COMPLIANCE AND GOVERNANCE

Empower your organization to enhance compliance and reinforce governance, with comprehensive revision logging, version control, workflows, user and artifact reporting, and data security measures.

Benefit from:

- **Easy compliance:** ease compliance with unlimited users working in a transparent system.
- **Secure access control:** protect data integrity with granular permissions.
- **Maintain standards:** enforce document standards with templates and more.

"RedEye became a single source of truth for us. If it wasn't in RedEye, it wasn't accurate. It's changed the way we work quite dramatically. It's just a really neat, clean solution."

– Bruce Bonney, Facilities Maintenance Manager, Children's Health Queensland.

CRITICAL INFORMATION ONLY A SEARCH AWAY

Simplify document discovery with powerful search tools. Scan QR codes for instant retrieval, and search by location for precise results.

Benefit from:

- **Advanced search:** utilize comprehensive filters and metadata to find what you need, fast.
- **Saved search:** share search results to streamline work.
- **Records near me:** discover asset drawings and documents in your vicinity.

"Time spent searching for drawings went down to two minutes. Our information is now quickly accessible."

– Greg Kodweis, Director of Infrastructure Management, Las Vegas Valley Water District

ACCRUENT

EMPOWER YOUR TEAM WITH MOBILE

Access the latest engineering information anywhere, anytime using our iOS and Android apps. Scan QR codes, markup drawings onscreen and manage changes by submitting and reviewing new markups.

Benefit from:

- **Mobile markup:** update drawings onsite with redlines, stamps and more, and submit instantly for review.
- **Offline access:** work offline and sync changes to the cloud once reconnected.
- **Check hardcopies with QR:** confirm printed drawing accuracy with on-page QR codes.

> *"When a major windstorm hit El Paso, having the RedEye app on my phone made it easier and faster to identify the outages and develop plans to get our customers back in service."*
>
> – Joe Natividad, Manager of System Operations, El Paso Electric

STREAMLINE PROCESSES WITH AUTOMATIONS

Transform document management with automations for document review, approvals, and more, ensuring tasks are completed accurately.

Benefit from:

- **Enhanced efficiency:** reduce manual effort with automated workflows for document review, approval, and distribution.
- **Improved collaboration:** keep team members informed about status changes with notifications and alerts.
- **Effective task management:** assign tasks and track progress ensuring all document activities are completed on time.

> *"We're all saving time in each step of our drawing review process. The workflows in RedEye help us be more efficient."*
>
> – Jordan Byles Electrical Engineer, Coronado Global Resources

CONNECT SEAMLESSLY WITH INTEGRATIONS

Siloed engineering drawings and documents hinder efficiency and data consistency. RedEye's robust API and seamless integration capabilities connect RedEye to your organizational systems ensuring your valuable information is accessible and actionable across your organization, eliminating manual data entry and reducing errors, ensuring smooth workflows and saving valuable time.

Benefit from: .

- **Enhanced data consistency:** connect with your existing systems to maintain consistent and accurate data across all platforms, minimizing the risk of discrepancies.

- **Custom integration solutions:** utilize a variety of implementation methods including API, Deep Linking and Manual Linking to support your to meet your organization's unique needs.
